

EMPLOYEE SHUTTLES

HOW DOES IT WORK?

Our shuttles provide a handy first and last mile solution to connect your staff from a transit station to the workplace in a safe, fast and reliable way. We coordinate service for multiple workplaces on the same shuttle to make the service affordable for smaller workplaces. We perform an assessment for each workplace to ensure that a shuttle is the right solution and coordinate contracts and schedules as well as handle all the communications and shuttle promotion.

BENEFITS

- Less congestion and parking demand
- Increased commute and job satisfaction
- Easier for staff to choose transit to get to work
- Makes your workplace more attractive to prospective employees
- Demonstrates your workplace's commitment to the environment
